

Developing practical understanding of the new EARLY LEARNING FRAMEWORK FOR IMPROVEMENT (ELFI)

ERO will be using this new framework
from 1st of September 2026

Confidently begin to navigate the new framework

You've read the Early Learning Framework for Improvement (ELFI) – *now let's work with it.*

This interactive workshop gives you time to unpack the framework, test your thinking and begin applying it to your own service.

Together we will explore:

What **Meeting**, **Doing Well** and **Excelling** actually look like in practice

How to make a robust, **evidence-informed judgement** about where your service sits

How to distinguish between a **great example** and **consistent practice**

What evidence you might **see**, **hear** and **trace** across your service

How to identify the **next steps** that will strengthen practice

You'll work through practical examples, compare judgements with other ECE leaders and begin using the ELFI to reflect on your own service.

Bring your ELFI and come ready to question, discuss and dig into the evidence.

When: Tuesday 22 September 2026, 9am – 12pm

Where: The Link, Hamilton

Investment: \$165 +GST per person

Facilitated by:

Melody
Stuckey

Ailsa
Evans
